

Fortified Tires

On the Better Road Above You

When tires go wrong, through faults which Good-year tires avoid, remember there's a better road above you. On it are some 400,000 users to whom Goodyears brought content.

Let each rim-cut suggest our No-Rim-Cut feature—the best way known to combat it.

Let each needless blow-out suggest our "On-Air" cure. At a cost to us of \$450,000 yearly, it wipes out a major cause.

Let each loose tread remind you that our patent method reduces this risk 60 per cent.

Let each puncture remind you that our All-Weather tread is tough and double-thick. And each skid suggest its sharp, resistless grips.

No Other Ways

No other ways so well combat these troubles. And no other tire employs one of these methods.

Reduction No. 3

On February 1st we made our third big price reduction in two years. The three total 45 per cent. Yet we retain every costly, exclusive feature. And we spend \$100,000 yearly to discover other betterments. We can and do give most for the money because of our matchless output.

You'll find that Goodyears mean less trouble, less cost per mile. The following Goodyear Service Stations will supply you:

WHO WAS MOST BLIND?

A Wisconsin man has a son who, while displaying most of the signs of at least ordinary intelligence, had always done very poorly in his school work. Outside of school hours he would barely look at a book, although he would urge others to read to him by the hour.

The father, a man in comfortable circumstances, feeling his own incompetency and being accustomed in his business to hire the best assistance he could employ, withdrew the boy from the public school and sent him to an expensive private school. It took a couple of years for the father to realize that the boy wasn't doing well there either. He tried another and still higher priced school and practically wasted another two years.

One evening in the course of a friendly visit with a close friend in the medical profession, the father recited his son's school experiences. The doctor listened closely; then began to put questions which brought out definitely what had, hitherto, been only vague, unreluctant observations.

Let me state, parenthetically, that during these years of unproductive schooling, when the boy had apparently failed to fit into any school system, he had learned a great deal by absorption. Unfortunately, however, his knowledge was most disorderly, and his mind was as undisciplined as the manners of a Fiji Islander.

The physician suggested a possible error in the boy's eyesight as the cause of his poor scholarship. The father doubted it. His charity for his son was about exhausted, and he expressed the opinion that the boy was just "pure cussed" and downright lazy. Nevertheless, an oculist was consulted. The first rough examination showed that the boy had eye defect that was enough to account for his aversion to the written or printed word. The eye examination, furthermore, removed the suspicion the boy had always been under concerning the vague headaches he complained of on school days, but which were noticeably absent on holidays and in vacation.

I wish that I could write a happy ending to this tale, but inasmuch as I am reporting an actual case, I cannot do so yet. Too many years had been wasted and the boy was too old to be humiliated by being sent back to the primary grades. In many respects this information far exceeded that of most boys of his own age. He has left school now and is doing as well as does the average boy with an undisciplined mind. His greatest hope for the future lies in the fact that he is beginning to realize his handicap and is doing some night and correspondence study to bridge the gap in his schooling; but he will have to pay a heavy price for what would have been cheap in his childhood.

Moral:—If you have a child who is not displaying a normal curiosity to see for himself what is inside of books, have his eyes examined before an irreparable injury has been done.

OLD ENGLISH HOUSES.

In the Days of Wooden Huts, Thatched Roofs and Clay Floors.

The habitations of English common people for centuries consisted of a wooden hut of one room, with the fire built in the center. To this hut, if a man increased in family and wealth, a lean-to was added and later another and another. The roofs were of thatch, the beds of loose straw or straw beds with bolsters of the same laid on the floor or perhaps eventually shut in by a shelf and ledge like the berths of a ship or by a small closet.

The Saxon thane or knight built a more pretentious "hall," a large open room like the Roman atrium with a lofty roof thatched or covered with slates or wooden shingles. In the center of the hall a fire burned great fires of dry wood, whose thin acrid smoke escaped from openings in the roof, above the hearth or by the doors, windows and openings under the eaves of the thatch.

By day the "hearthsmen" and visitors, when not working or fighting, sat on long benches on either side of the fire and, as John Hay puts it, "calmly drank and japed" or, gathering at long boards placed on trestles, regaled themselves on some sort of porridge with fish and milk or meat and ale.

At night straw or rushes spread on the floor formed beds for the entire company in the earlier and ruder days, when the "baser sort" were glad to share their straw with the cows.—National Magazine.

Enough Is Plenty.

Most of us should be well satisfied if we haven't enough troubles to keep us awake.—Albany Journal.

Goo, Goo!

"There's a great difference in the last words of famous men; but their first words were all about the same.—Chicago News.

The Limit.

The boob is terribly henpecked, isn't he?" remarked the old fogey.

"Should say he was," replied the grouch. "Why, his wife is making him learn to breathe through his ears so he will wake himself up when he snores."

Sure!

When in a venture you embark, Just let your nerve stay put, For if you do not toe the mark You'll stay down at the foot.

Ouch!

"Dr. Carver is awfully absentminded," remarked the thin man.

"That so?" asked the fat man.

"Yes," replied the thin man. "The other day, when he was filling out a death certificate, he placed his name in the space reserved for 'Cause of death.'"

"That's a good one," laughed the fat man. "But what makes you think that he is absentminded?"

Giddap!

Where Moneybags got all his pelf He never wants to state, But while he won't express himself He sure can pay the freight.

The Wise Fool.

"Money can't buy love," observed the sage.

"No," replied the fool, "but it comes in mighty handy for procuring the divorce."

In Wrong.

Old Adam liked to brag all day, But Eve would tie a can On his hot air when he would say He was a self made man.

Names Is Names.

Undertaker Doom is doing business at New Carlisle, O.

Where Is Secretary Daniels?

Back on Job.—Max Souzer, of the Grand Rapids navy recruiting station, returned to this city last night to assume his duties here.—Grand Rapids (Mich.) Herald.

Explained.

It's funny that in other days Our money seemed to last, But it went further then because It didn't go so fast.

They Are Real.

Dear Luke—To settle a dispute please tell me if the names which appear in "Names Is Names" are legitimate names of real people or mere fiction.—J. T. S., Dayton, O.

The names are culled from various sources and are the names of real people. Most of them are sent in by readers with proofs that the names are legitimate.—Luke McLuke.

Things to Worry About.

Thirteen kinds of disease germs have been discovered in the dirt under one finger nail.

Our Daily Special.

Truth isn't stranger than modern fiction.

Luke McLuke Says:

The reason some men have time to loaf around all day and knock their home town is because their wives are taking in washing to pay the rent.

When religion and politics try to sleep in the same bed religion gets pneumonia because politics hogs all the covering.

When they are engaged they know that they are going to live on love and kisses. But after they marry the groceryman and the butcher put an awful dent into his pay envelope.

When five men meet in a saloon and gab for awhile any one of the five will tell you later on that the other four talk too much.

An eastern savant claims that women are becoming more changeable. That's no joke. Some of them change husbands about seven times before they settle down.

It doesn't do you any good to be sure you are right if you are married. You can't prove it to your wife.

While there is no sense in waiting until a woman is so old that she is all withered up before you marry her, we never heard of a fellow copping out a child wife and having any happiness.

You always hustle when other people are waiting on you. But when you are doing the waiting other people seem to take their time.

If a man ever spends a dollar for advertising in a newspaper he gets the idea that he has a right to control the policy of the publication.

Harmony in the home often means that father is too much of a gentleman to strike a woman and that mother would be arrested for manslaughter if father ever tried to.

It takes a lifetime to make a good reputation. But you can make a bad reputation in five minutes.

The old fashioned girl who was named Mary Jane now has a daughter who is named Marie Janet.

We holler if we have to work hard when we are working. But we do not mind working hard when we are playing.

The woman who is so worldwise that a live trolley wire couldn't jar her is usually the one who is most shocked when anything happens.

Half the world is trying to get it in the paper, and the other half is trying to keep it out of the paper.

THE GRATEFUL FRIEND MAKES A SPECIAL EFFORT TO THANK THE GOOD JUDGE

MIGHTY good reasons for a man to feel thankful to the friend who first introduced him to the *Real Tobacco Chew*.

Tobacco solace and comfort are worth finding and worth passing on to others.

A little chew of pure, rich, mellow tobacco—cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

Teachers' Institute at Junction City.

Twenty-five teachers gathered at Junction City on Saturday morning, March 13, and took part in the discussions of the institute. President John F. Sims of the Stevens Point Normal talked on "Habit Formation," citing the value of good habits as formed in early life and school. Later he discussed geography and civic outlines in the manual and pointed out the essentials to be taught.

Supt. Bannach talked to the teachers on the different phases of school work that she sees during her visits to the various schools. The program was taken up in detail and its importance emphasized. The teachers expressed much interest and there is no doubt that the institute will prove of much value to the schools in which they work.

How's This?

We offer One Hundred Dollars Reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, Ohio. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

National Bank of Commerce, Toledo, Ohio.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.
Take Hall's Family Pills for constipation.

State Paper in Club Offer.

We have just succeeded in making arrangements with the Wisconsin State Journal so that we can offer it in club with The Gazette. For a short time we will be able to offer the Wisconsin State Journal, the regular subscription price of which is \$3.00 per year and The Gazette, the regular subscription price of which is \$2.00, for a total of \$4.00, strictly in advance.

No daily paper offers more in quality and quantity than the Wisconsin State Journal. It is a clean moral daily paper, and is independent in politics. Its editor, Richard Lloyd Jones, is a man of national reputation, having for ten years been associate editor of Collier's Weekly. Mr. Jones does not believe in letting anything go into his paper which should not go into a home. Therefore, he excludes all liquor advertisements and objectionable patent medicine advertisements.

The State Journal is the official paper of Wisconsin and especially features Wisconsin news. It prints all the new laws made by the legislature. In addition to this, it has an unlimited telegraph service covering both national and world news.

Now is the best time to send The Gazette your subscription while the bargain club offer is available.

An English dairy farmer claims that women as milkers are much to be preferred to men. They are much more gentle and secure a larger flow, besides being very much cleaner in their work. He says, "Woman cannot help being cleaner and more orderly in her work than man on general principles."

When Anybody Finds a Cure He Is Generally Willing To Tell His Neighbor

The willingness of one neighbor to tell another neighbor in a private way of the benefit received from Peruna, explains the popularity of Peruna more than all the advertising that has been done.

The fear of the publicity undoubtedly prevents the majority of such people from writing a testimonial to be used in the newspaper. But in spite of that we are receiving fine testimonials continually.

ANEMIA—Mrs. F. A. DeWitt, Marengo, Ohio, says: "I believe Peruna to be the best tonic. I recommend it for any run-down condition of the system."

SPRING COLDS—Mrs. Rhoda Stufflebeam, Bunch, Iowa: "A spring cold I took settled on my lungs. Coughed. Could not sleep. We feared consumption. Thanks to Peruna, I am a well woman today."

CATARRH—Mrs. Sadie Allen, Joseph, Oregon: "My little boy is entirely cured of catarrh of the ears by Peruna. Am thankful for your good advice."

SPRING TONIC—Mrs. Wm. McRoberts, Brown Valley, Minn.: "Taken in spring Peruna tones up the system, acts as a tonic. I consider Peruna a whole family medicine chest."

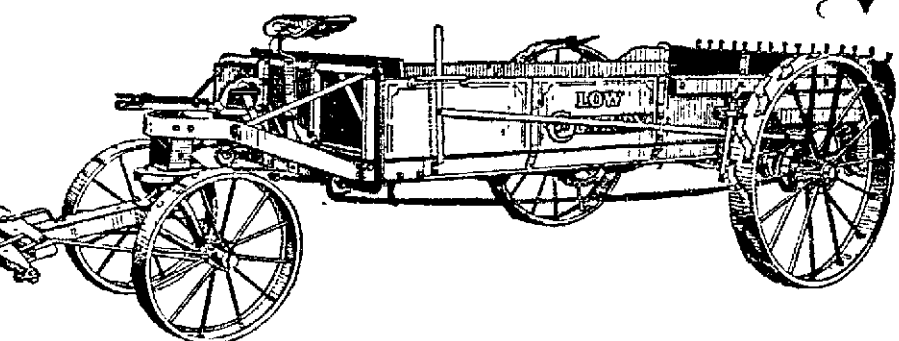

How did they hear of Peruna?

Simply because one neighbor is always willing to tell another one he has found a cure. Neighborly conversation of grateful patients has done more for Peruna than advertising. Much more.

The "Ills of Life," sent free.

The Peruna Co., Columbus, Ohio.

INTERNATIONAL HARVESTER MACHINES

Here Is the Low 20th Century The Machine You Should Own

OF all spreaders we could handle, we have chosen to sell the Low 20th Century manure spreader, because we have found, as you will find, that it is all-around the most satisfactory machine on the market. It is strong and durable, simply constructed, convenient to load and to operate, spreads the manure just as you want it, and is made in several sizes. The Low 20th Century beater and apron driving mechanism is powerful, simple, and protected from injury. Differentials in the rear axles allow even spreading on corners, while turning either way. There are five distinct feeds. The multiple disk allows a wide range, varying from two to sixteen loads per acre. Apron is operated by worm and gear construction that assures uniform spreading.

This apron and beater drive construction has many good features that we can show you here—features that have proved their worth on many farms.

SOUTH SIDE AND RAILROAD

Personal and News Items of More or Less Importance to Readers of The Gazette.

D. N. Welch, agent for the Soo line at Auburndale, came down Saturday afternoon for a few hours' visit among old friends in town.

Mrs. Jacob Haag went to Theresa last Saturday for a week's visit at the home of her son, who is agent for the Soo line at that station.

Mr. and Mrs. Robt. Saretzky, Henry Huber and H. C. Perkins came down from Ashland last Monday afternoon to attend the funeral of Mrs. Emil Zimmer.

Fred Braun went to Milwaukee Monday afternoon on business for the Racine Underwear Mills. Mrs. Braun and little daughter will go down Friday for a ten days' visit.

Arthur Ross spent part of last week in Chicago, going down in company with his little niece, Alice, daughter of Mr. and Mrs. Earl Ross, who had been visiting at McDill since the holidays.

Martin Bender and nephew, Donald Bender, are spending a couple of weeks at the home of the former's parents, Mr. and Mrs. Joseph Bender on Prairie street. The visitors are from Duluth.

Aug. Sherbert, who has been employed during the winter on the Soo line ore docks at Ashland, spent a couple of days here this week, coming down to do some repair work for the company.

A son was born to Mr. and Mrs. H. H. Bright at the home of the lady's parents, Mr. and Mrs. R. S. Cochran, on Strong's avenue, last Thursday. Mrs. Bright, who was formerly Miss Colla Cochran, is now a resident of Harvey, N. Dak.

A son was born to Mr. and Mrs. Thos. McFigue at Minneapolis last Friday. The happy father is a passenger brakeman on the Soo line and Mrs. McFigue was formerly Miss Catherine Clements of this city. They now have two children, the older one a girl.

Mrs. W. R. Durfee, who makes her home with her daughter, Mrs. C. E. Urbahn, went to Chicago last Saturday for a visit at the home of another daughter, Mrs. J. L. Mills. Mrs. Mills had been visiting here and accompanied her mother to the Illinois metropolis.

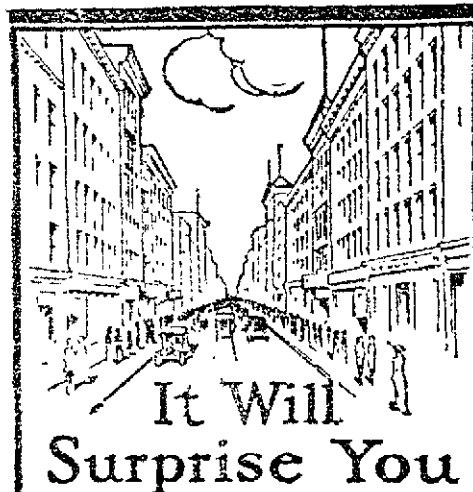

Mrs. F. M. Reinhart and Misses Pearl and Stella Reinhart were guests at the Wallace Fairbanks home at Grand Rapids last week. Mr. Reinhart spent Sunday there and was accompanied home Monday afternoon by his wife and daughter, Miss Pearl. Miss Stella will remain for a more extended visit.

The seven months' old son of Mr. and Mrs. John A. Larson died at the family home, 1214 Church street, last Sunday evening. The little one's name was Earl Frederick. Funeral services were conducted by Rev. Kirkwood of Trinity Lutheran church at 11 o'clock Tuesday morning and interment followed in Forest cemetery.

Robt. Broten, one of the Soo line engineers, is now owner of the residence property at 318 Madison street, consisting of a comfortable home and one and one-half lots. He purchased the property from Mrs. Lelah E. Weed, now a resident of Oregon, for a consideration of \$850. Mr. Broten and family have occupied the place during the past several months.

Good Winter For Logging.

L. Peterson, former owner of the leading hotel at Koshkott and who represented the village as supervisor, visited among friends in this city over Sunday. Mr. Peterson now makes his headquarters at Crandon, Forest county, engaged in the logging business, and last winter cut and banked between three and four million feet. The season was ideal for lumbering purposes, continued cold weather enabling the building and maintaining of ice roads.

It Will Surprise You

to know and understand, as *as do*, the finer results you can obtain with Anso photographic materials. Anso—the amateur camera of professional quality. Come in and let us demonstrate it. Next to First National Bank

LONG SUFFERING IS ENDED

Mrs. Emil Zimmer, Esteemed Local Resident, Answers Last Call—Funeral Held Monday Afternoon.

Mrs. Emil Zimmer, who had been in poor health for the past five years, was relieved of her sufferings when death called her at 9:20 o'clock last Friday morning. She passed away at the home of her mother, Mrs. J. B. Marshall, 302 Monroe street, where she and her husband had resided for the past few years.

Mary Louise Henning was born in this city nearly thirty-eight years ago, on April 24th, 1877. She attended the public schools, including the "Old White School," and upon growing to young womanhood resided in Milwaukee for a while, where she was married to Emil Zimmer, April 26, 1899. After their marriage they made their home at Kolze, Ashland and Abbottsford at various times, Mr. Zimmer being in the employ of the Wisconsin Central and its successor, the Soo railroad company, at present holding the position of foreman at the local Soo roundhouse. Mr. and Mrs. Zimmer had been residents of Stevens Point since December, 1910.

Besides her husband, the deceased is survived by her mother, three brothers and three sisters, Mrs. Robert Hanke and Mrs. R. E. Canniff of Fond du Lac, Mrs. Ed. Joseph of this city, Louis A. Henning of Milwaukee and William C. Henning and Garrett Marshall of this city. Her father, August J. Henning, passed away thirty-one years ago.

Mrs. Zimmer bore her long illness with patience and fortitude and her life was an exemplary one. The care attendant upon her prolonged illness was lovingly given by those to whom her benevolent nature had endeared her.

Funeral services were held at the Marshall residence at 2 o'clock Monday afternoon, after which the remains were taken to St. Paul's Lutheran church and at 2:30 o'clock services were conducted there, Rev. B. O. Richter officiating.

The pallbearers were A. H. Mann, Harry Bemis, C. Gillaspay, F. C. Holman, T. E. McPhail and Otto Ostendorf.

Relatives and friends who came from a distance included Geo. A. Zimmer and family, Marshfield; Mrs. Wm. Sax, Eastman; Mr. and Mrs. Maurice Sax and Mr. and Mrs. Wm. Johnson, Kolze; Mr. and Mrs. A. W. Best, Ashland; Mrs. Carl Dauber, Oshkosh; Mrs. Caroline Bauer, Weyauwega; Mrs. Frank Zimmermann and Mrs. Herman Cruiger, North Fond du Lac; Mrs. Peterson, Grand Rapids; A. R. Kipp, Mrs. R. Canniff, Mr. and Mrs. R. A. Hanke, Fond du Lac; C. F. Gillaspay and A. L. Filmore, Minneapolis; and Mrs. Herman Marx, Chippewa Falls, and Louis Henning, Milwaukee. The floral offerings were truly magnificent and attested in a slight degree the respect and esteem in which the deceased lady was held. Among the numerous large pieces were a casket, a wreath and gates ajar from Mr. Zimmer's fellow employees on the Soo line, a wreath from the repair track men, a wreath from Messrs. Gillaspay and Filmore, a cross from the Zimmer family, a pillow from the deceased lady's sisters, brothers and parents, and a pillow from the Ladies' Aid society of the German Lutheran church.

Fell From Scaffolding.

Geo. Soik, proprietor of the Independent creamery at Polonia, met with an accident Monday which will keep him off duty for some time. While working on a scaffold about ten feet high, one of the boards broke and Mr. Soik fell to the ground, bruising his left side quite badly.

SHOOTING AT MARION

Veterinarian Shoots City Clerk. Who Dies at Wausau Hospital—Doctor Out on Bail.

Gus J. Kinkle, city clerk of Marion, Waupaca county, was shot through the abdomen by Dr. G. W. Krubsack of that city at about ten o'clock Monday evening of last week, and died the following Wednesday at 11:30 p. m. at the Wausau hospital, where he was taken soon after and where an operation was performed. Before his death District Attorney Giles Putnam of Waupaca took the wounded man's dying statement and he admitted that he was entirely to blame for the affair.

The trouble arose over the attentions paid by Kinkle to Krubsack's wife. The latter had warned Kinkle to keep away from his home, but the warning was unheeded. Monday evening Krubsack received a call to a creamery, but on his way there was met and told that his services were not needed and he returned to Marion. Approaching the house at about 9:30 p. m., he saw Kinkle leaving the back door and fired at him twice, only one of the bullets hitting him. Kinkle went on his way and stopped at a bakery and then at a saloon and upon reaching home, when asked by some boys about the shooting, said he knew nothing about it. Subsequent pain, however, caused him to realize the seriousness of his condition and he was taken to the Wausau hospital.

The victim was a man nearly 48 years of age and had lived at Marion for many years. He had a wife and three daughters, the former being Miss Wilhelmina Patri of Campbellport, Wis., before her marriage. Kinkle was former locomotive fireman and of late an agent for the Marion brewery and engaged in the real estate business.

Dr. Krubsack is a veterinarian at Marion, about 25 years of age and out of college only about two years. At a preliminary hearing held the day after the shooting, Dr. Krubsack was admitted to bonds, set at \$5,000.

This bond, however, did not meet the approval of the court and on Saturday of last week he was brought to this city by Sheriff H. R. Hurst of Waupaca and made an application to the circuit court to determine the amount of his bail. Judge B. B. Park placed it at \$10,000 and signed an order appointing Llewellyn Cole as assistant to District Attorney Putnam for the state and O. L. Olen represented the defendant.

High School Notes.

Easter vacation will begin Friday of this week. School will reopen on Easter Monday.

Edyn Aspenwald has withdrawn from school and will leave some time this week for his future home at North Freedom, near Baraboo.

Miss Leigh has received a leave of absence and is at her home in Minnesota. She has been in poor health for a long time and so a complete rest was needed.

Our basket ball team will play their first game of the tournament Friday night with Iola. Although the High school team has not a very good record for this year, they have put in some hard work the last week and are going to spring a surprise in the tournament.

On Friday a single session will be held. School will commence at 8 o'clock and close at 1 o'clock, in order that the students may witness the games of the basket ball tournament, which opens at the Normal that afternoon and continues throughout Saturday.

Attend Funeral at Shiocton.

J. H. Ames, a graduate from the Stevens Point Normal school in 1902 and now institute conductor at the River Falls Normal, was a guest at the home of his brother, Prof. M. M. Ames, last Saturday night. Both gentlemen spent that day at Shiocton, going there to attend the funeral of their aunt, Mrs. J. F. Morse, who passed away Thursday afternoon, aged 65 years. A son, John F. Morse, finished the local Normal course in 1907 and is now a fruit rancher at Lewiston, Idaho.

VICTIM OF WHITE PLAGUE

Mrs. Leo Pulchinski, Daughter of Ole Ottem, Answers Death's Call—Funeral Friday Afternoon.

Mrs. Leo Pulchinski, a resident of this city since she was a little girl of three years, died at 2:15 o'clock this morning at her home, 319 Prairie street. She had been in poor health for a year or more but was able to look after her household duties until a week ago last Sunday, since which time the decline had been rapid. The lady fell a victim to tuberculosis, which malady also caused the death of a brother, John Ottem, last August.

Anna Ottem was a native of Norway, in which country she was born 28 years ago the 8th of last November. Her parents, Mr. and Mrs. Ole Ottem, emigrated to America in 1890 and the family home had been in Stevens Point ever since that time. Anna and Leo Pulchinski were married here eight years ago on October 12th last. There are three children in the family, Forrest, aged seven; Edward, six years old, and Inez, a little girl of four years.

The deceased lady also leaves one sister, Mrs. Hugo Olsen of Rhineland, and three step-sisters, Thelma, Leona and Elenore Ottem of this city. To them and to the bereaved husband and father the sympathy of the community is extended.

Funeral services will be held at the Prairie street home at 2 o'clock next Friday afternoon, Rev. James Blake of the Baptist church officiating, followed by interment in Forest cemetery.

Baker as chairman, and will be as follows: Vocal solo, Miss Kate Ball; violin solo, Roy Ennor; talk, "Oral Hygiene," Mrs. J. M. Bischoff; vocal solo, A. J. Miller; talk, "Civics," Mrs. T. H. Hay; baritone solo, C. W. Eagleburger.

Have Your Hats Cleaned.

Prepare for spring by having your hats cleaned and re-shaped at the Stevens Point Shoe Shine Parlor, Main street. Prices are as follows: Gents' felt or straw hats cleaned and re-shaped, 25 cents; ladies' hats and Panamas, 50 cents. All work guaranteed. We call for and deliver hats to any part of the city. Phone red 359.

INSTITUTE AT ALMOND

Thirty-five Teachers From Village and Surrounding Country Listen to Prof. Herrick and Supt. Bannach.

A teachers' institute held at Almond last Saturday, March 20th, was attended by thirty-five teachers of the village high school and rural schools in the surrounding country. Prof. A. J. Herrick of the Stevens Point Normal school gave a most instructive and interesting lesson on alfalfa and what the teachers may do to instruct their boys and girls in its growth. He pointed out definitely the benefits farmers will receive if they will but grow alfalfa. The subject of boys' and girls' clubs and some potato diseases were taken up also, and the teachers received them with much enthusiasm.

and it is expected that several boys' and girls' clubs will result from this talk. As is usual with Prof. Herrick in his class room work, he made this institute work very practical and instructive and there is no doubt but what much good will result from these lessons in the communities in which the teachers are working.

Supt. Bannach took up the work of organization of school work, emphasizing in particular the necessity for having and following a good program, and besides this she outlined the work for the rest of the school year.

The enthusiasm by which this institute was received by the teachers and also the fact that many who are not teachers were present proves without a doubt that the institutes in Portage county have been giving instructions that are practical to the teachers in the county.

Miss Lulu Cary went to Plainfield this morning, where she is interested in the millinery business.
Mabel Peterson has gone to Minneapolis for a visit of several days at the home of her uncle, Thos. McTigue.
A son was born to Mr. and Mrs. Frank Konopacki, corner Main street and public square, Tuesday morning.
Mrs. Chas. Nelson left for Minneapolis, Tuesday, to visit the remainder of the week with Mrs. G. A. Manthey.
John M. Donahue was out for the first time today after a severe siege with the grippe. He was in bed for seven days.
Mrs. Jas. Duggan and little son, Donald, and Miss Mary Duggan spent today at Custer as guests of Mrs. Emmet Leahy.
A. A. Hetzel left here last night for Excelsior Springs, Mo., where he will take medical treatment for the next couple of weeks.
Chas. Brady of Buena Vista spent last night among friends in town and boarded this morning's train for Custer on a business trip.
E. C. Jensen, an architect from Chicago, was in the city Tuesday inspecting the Church of the Intercession, incidental to making plans for rebuilding.
Four beneficiary members were received into Lillian Hive No. 14, L. O. T. M., at a meeting held last Monday evening, after which a social hour was enjoyed by those present.
Mrs. W. A. Lawson, state president of the W. C. T. U., will lecture at the Presbyterian church next Sunday evening. A good attendance is desired and the general public invited.
The Whiting-Plover Paper Co. now have a private telephone exchange in their new office, nine telephones connecting the various departments. The system was installed by the Wisconsin Telephone company.
Anton Literski, who has been afflicted with diabetes for the past year or more, has been confined to his bed at his home, 515 Normal avenue, since February 8th, and within the past few days gangrene has set in in one of his toes. He is critically ill at present.
Mrs. D. J. Leahy, who is district vice president of the federation of women's clubs, attended a joint meeting of the Monday Night and Woman's clubs at Waupaca, last Monday evening, at which time she read a paper on "Art in Its Relation to the Home." The Waupaca ladies presented Mrs. Leahy with a handsome bouquet of jonquils and ferns.
Prof. R. W. Fairchild of the Normal faculty was at Oshkosh, Thursday, Friday and Saturday of last week, where he refereed the eight tournament games played in the Oshkosh Normal gymnasium between teams representing Berlin, Fond du Lac, Grand Rapids, Oshkosh, Weyauwega, Appleton, Rhinelander and Marshfield high schools, in the third annual Northwestern Wisconsin Intercollegiate tournament. Fond du Lac won the championship title by defeating Berlin 27 to 18 in the finals; Berlin finished second and Oshkosh third, by defeating Marshfield 15 to 12.

Death of Aged Lady.

Mrs. Margaret Moran and nephew, D. J. Leahy, left for Hartford Tuesday morning to attend the funeral of their sister and aunt, Mrs. Mary Welch, who died the day before and was buried this morning. They were joined at Amherst by Mrs. Dennis Leahy and son, W. H. The deceased lady was 83 years of age. She had a number of acquaintances in Stevens Point, having visited here some years ago. Besides the two sisters above named, another sister, Mrs. P. Johnston, lives at Rhinelander, and there are several adult children.

Indian Must Stand Trial.

Douglas Grizzly Bear, the Winnebago Indian who was arrested for the murder of his wife, Anna Grizzly Bear, near Elderon, which occurred on the morning of March 3rd, had his preliminary hearing at Wausau last Thursday and was held without bail for trial at the next term of circuit court. The evidence introduced at the hearing was all circumstantial, except that some of the witnesses testified that the Indian had informed them that he had killed his wife. The defense offered no evidence.

Geo. A. Whiting and son, Frank, of Neenah, were business visitors in town last Monday.

A. M. Wilmot of Amherst attended to business matters in this city a few hours Tuesday.
Mrs. C. S. Orthman and little daughter were over Sunday guests of Miss Lou Hooper at Milladore.
W. H. Leahy and E. M. Cooney of Lanark were business and social visitors in town a few hours last Monday.
Miss Eva Webb left for Milwaukee Monday afternoon to visit a week or more among former neighbors in that city.
Mrs. C. N. Fenton and Miss Helen Delaney of Amherst and Mrs. L. E. Scherke of Arnott were visitors to this city Tuesday.
Karin (S. Dak.) Beacon: Miss Florence Grant was in town Wednesday. We are pleased to note she is able to be out again after her recent sick spell.
J. O. Een, vice president of the Shawano creamery company, spent part of Tuesday in this city on a business trip. The young man is a son of Mr. and Mrs. John Een of Amherst.
S. H. Vaughn, a former Stevens Point and now a prominent railroad man at Green Bay, was last week elected president of the Commercial Club. Mr. Vaughn had served as vice president for five years.
Mrs. Catherine Corcoran was called to Portage Tuesday morning by a message announcing the sudden and serious illness of her mother, Mrs. Cleary. As the latter lady is 86 years of age, considerable alarm is felt by the family and friends.
Miss Helen R. Stemen, daughter of Rev. and Mrs. John A. Stemen, and a Senior at Oberlin College, Ohio, played right guard on her class team which has just tied the Freshmen for the girls' championship of Oberlin. This contest brings the annual interclass tournaments to a close. The tie will have to be played off in a post-season game.

What the Kidneys Do

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—which vary widely but may include pain in the back, headache, nervousness, hot dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposit in the urine, etc. But if you keep the filters right the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

Mrs. C. W. Brooks, 717 Strong's avenue, Stevens Point, says: "About ten years ago I used Doan's Kidney Pills and they brought me great relief from pains in my back and trouble with my kidneys. I was benefitted so much in every way that I willingly recommend Doan's Kidney Pills and I hope that others will find the same lasting good that I did."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brooks had. Foster-Milburn Co., Props., Buffalo, N. Y.

Women continue to gain recognition in new fields of endeavor. Schneck and Mead, women architects who are established in New York city, have won the Chicago City club's first prize for the best plan of a neighborhood center.

For the Stomach and Liver.

I. N. Stuart, West Webster, N. Y., writes: "I have used Chamberlain's Tablets for disorders of the stomach and liver off and on for the past five years, and it affords me pleasure to state that I have found them to be just as represented. They are mild in their action and the results have been satisfactory. I value them highly." For sale by all dealers.

Reports from a buttermaker who shipped butter east, and then followed it up, shows that there may be an actual shrinkage of from one to two pounds or more in one tub of butter in seven days.

To the Housewife.

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious diseases. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.

Your Health —depends on— Your Spine

A perfect spine insures perfect health. A subluxed spine is the cause of disease. If the nerves connecting with the stomach are pinched by a subluxation of the spine, you will have stomach trouble. If the nerves that are supplying the heart are pinched, the heart will be affected. This is true of other organs and tissues of the body.

I do not ask your troubles—I will tell you what you are suffering from.

Write or call for my booklet.

IN THE WORLD OF SPORT

George Bothner, Wrestler,
Tells Secret of Youth.

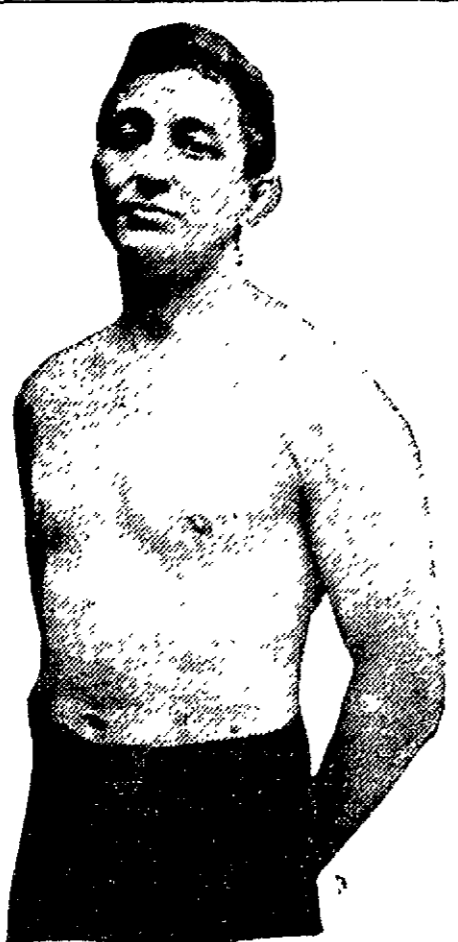

Photo by American Press Association.

George Bothner, who recently defeated Miyake, the Japanese expert, according to the experts has never had an equal as a defensive wrestler. In his contest with the Jap he proved that, despite all his forty-eight years, he is as agile as and a great deal stronger than many men twenty years his junior. Bothner is a native of New York city and began to learn wrestling when but thirteen years of age. When but a boy and weighing less than 125 pounds, while taking part in an amateur tournament, he won the championship in the 125 pound class and less than two hours later won the 158 pound title. During his seven years as an amateur Bothner never lost a contest.

"Any man can be strong and healthy if he will keep his pores open and will take plenty of exercise," says Bothner. "Men become old before their time because they eat too much and are lazy. No man should eat unless he feels hungry. Then he should eat in moderation. If the average man would exercise for fifteen minutes every day and would take a shower bath after his exertions he would not become a victim of gout or rheumatism. Heavy eating and no exercise insure these two dread diseases."

The Overworked Athlete.
The esteemed and earnest ball player has been referred to as an "overworked slave." Each schedule calls for 151 games. Of the 400 big leaguers enrolled last season only twenty-two worked in 150 games, nine in the National league and thirteen in the American. In the American league Sam Crawford, Dome Bush and Roger Peckinpaugh were the only players who worked in every game fought by their clubs. In the National league there wasn't an entry who failed to miss an afternoon's work.

Bush Surely Consistent.
Owzie Bush of the Tigers is a methodical and consistent person. He doesn't believe in doing a thing one way this time and another way the next time. To prove the marvelous consistency of Bush, note his records for 1913 and 1914: In 1913 Bush went to bat 593 times, made ninety-eight runs, made 149 hits and delivered nineteen two baggers. His average was .251. In 1914 Bush went to bat 596 times, scored ninety-seven runs, rapped 150 hits and smote eighteen two baggers. His average was .252.

Navin Will Let Main Go.
Miles Main, the pitcher, who hopped from Detroit to the Federals, is bound to the Tigers by a perfectly legal contract, without any ten day clause. The Detroit club, however, would be perfectly willing to drop the matter and let him stay jumped, but it is understood the other American league magnates desire President Navin to insist that Main consider his obligations.

Negro Bouts For Wisconsin.
Negro boxers will be permitted to engage in contests with each other before boxing clubs in Wisconsin, but no bouts between white and negro contestants will be allowed, according to a ruling of the Wisconsin boxing commission, after having consulted with the attorney general. This ruling rescinds a former order, which forbade bouts between negroes in Wisconsin.

Naps to Be Indians In Future.
The Cleveland American league baseball team will hereafter be known as the "Indians." It was decided at a meeting of the club officials and baseball writers. The name "Naps" became obsolete when Napoleon Lajoie went to the Athletics. It was also decided at the meeting to agree on "Spiders" as a name for the Cleveland American association team.

Harvard Coach Favors Summer Ball.
Summer baseball games and a round robin series to decide the college championship is advocated by Coach Sexton of Harvard for next season.

THAT COLD YOU HAVE

may bring sickness, doctors bills and loss of work; you know that serious sickness usually starts with a cold, and a cold only exists where weakness exists. Remember that.

Overcome the weakness and nature cures the cold—that is the law of reason. Carefully avoid drugged pills, syrups or stimulants; they are only props and braces and whips.

It is the pure medicinal nourishment in Scott's Emulsion that quickly enriches the blood, strengthens the lungs and helps heal the air passages.

And mark this well—Scott's Emulsion generates body-heat as protection against winter sickness. Get Scott's at your drug store to-day. It always strengthens and builds up.

14-51 Scott & Bowne, Bloomfield, N. J.

The war in Europe will enter a new phase, no doubt, very soon after the roads are dry.

White Men With Black Liver.

The liver is a blood purifier. It was thought at one time it was the seat of the passions. The trouble with most people is that their liver becomes black because of impurities in the blood due to bad physical states, causing biliousness, headache, dizziness and constipation. Dr. King's New Life Pills will clean up the liver, and give you new life. 25c at your druggist.

SEEING THE WIND.

Easy to Watch the Air Currents Flowing Like a Waterfall.

It is said that any one may actually see the wind by means of a common hand saw. The experiment is simple enough to be worth trying at least. According to those who have made the experiment, all that is necessary is a hand saw and a good breeze.

On any blowy day hold the saw against the wind—that is, if the wind is in the north hold the saw with one end pointing east and the other west. Hold the saw with the teeth uppermost and tip it slowly toward the horizon until it is at an angle of about forty-five degrees.

By glancing along the edge of the teeth you can "see the wind." It will be pouring over the edge of the saw much after the manner that water pours over a waterfall. This is doubtless due to the fact that there are always fine particles of dust in the air, and in a strong breeze the wind forces against the slanting sides of the saw, slides up the surface and suddenly "pours over" when it reaches the top.

It is doubtless the tiny particles that make the air dust laden that can be seen falling over the edge of the saw as the wind current drops, but it is about as near as any one can get to seeing the wind under normal conditions.—Washington Post.

An Island Wilderness.

Andros Island, among the Bahamas, is ninety miles in length and twenty to forty miles in breadth and most of its extensive area has never been explored. It is an unbroken wilderness, inhabited solely by about 3,500 negroes. It has great forests, seldom penetrated by white men, of mahogany, mustichony, logwood and cedar, swamps, creeks and bays teeming with wild fowl, including the flamingo which is found here in vast numbers. No real effort has been made to exploit its resources. It is said to be the only one of the Bahamas which has running streams of water and is surrounded by a series of barrier reefs which provide sheltered water ideal for yachting.

Changed Views.

"Time makes a big difference."
"What are you thinking of?"
"My wife's father. I used to think him a stubborn old fool. Now I respect his judgment."
"What's happened?"
"Nothing; only he did his darndest to prevent my eloping with his daughter."—Detroit Free Press.

A Wonderful Healing Influence in Kidney Troubles.

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as stone in the bladder and prescribed lithia water. I took lithia water and tablets for some time and received no relief from them. I stopped taking medicines for some time, later having some Swamp-Root in the house I decided to try it and felt much relieved. While taking the second bottle commenced to pass gravel in urine until I had passed in at least a half dozen or more and have not suffered the slightest since—and in all have taken one bottle and a half and feel very grateful to Swamp-Root.

Yours very truly,
W. H. SPINKS,
Camp Hill, Ala.

Personally appeared before me this 16th day of August, 1909, W. H. Spinks, who subscribed the above statement and made oath that the same is true in substance and in fact.
A. B. Lee, Ex. of Justice of Peace.

Letter to
DR. KILMER & CO.,
Binghamton, N. Y.

Prove What Swamp Root Will Do For You
Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention The Gazette, Stevens Point, Wis. Regular fifty cent and one dollar size bottles for sale at all drug stores.

MARCHING TROOPS

Caring For the Feet of an Army
Is a Vital Matter.

AS IMPORTANT AS FIT FOOD.

The Manner in Which the Sock and Shoe Problem Was Solved by Our Military Men Has Given Uncle Sam the Best Shod Soldiers in the World.

The care of soldiers' feet is one of the important things in war. A soldier is no better than his feet. Many things enter into the sum total of military efficiency, but two of the great factors making for efficiency in troops are marksmanship and marching power. Infantry that cannot march would be as much as infantry that could not shoot. It may be because of the importance of the feet in infantry that the men of that branch of the service are called "foot troops." Infantry without good feet would be more useless than cavalry without mounts, artillery without cannon or a flying corps without an aeroplane.

Napoleon has been credited with saying that an army marches upon its stomach, which, of course, is true as far as it goes. Soldiers to bring or maintain their efficiency at the highest point must be adequately fed, and a world of endeavor has been put forth by busy men to insure the proper supply of food, to put into the ration the constituents needed by the human system and to have the food well cooked. But it is just as true, figuratively as well as literally, that an army marches on its feet.

When a recruit or a prospective recruit comes up for his physical examination the examining surgeon gives just about as much attention to the applicant's feet as to his lungs, heart, kidneys, teeth, vision and hearing. He will not pass a man with flat feet, because that man could not march. He will insist on a certain amount of arch to the foot. Too high an arch, which, however, is rare in men, would result in his rejection. Any defect in the feet which would militate against his endurance on the march would be a cause for rejection of the man.

With the recognition of the importance of the soldier's foot came long and earnest study and experimentation with the soldier's sock and his shoe. The sock question was soon satisfactorily adjusted. The necessity of frequent bathing of the feet, especially on the march, was early determined on, and woolen socks, light or heavy, according to the season, were decided on for marching men. Fresh and clean socks are insisted on, and a sock with a hole in it or a sock that has been darned is not to be worn. At least that is the idea as developed in the American military service. In the matter of the fit of a soldier's socks it is prescribed in regulations that "the socks shall be large enough to permit free movement of the toes, but not so loose as to permit wrinkling."

When it came down to the study of the shoe the military men had a serious problem which it is believed in this country to have been correctly solved and with the result that the men of the American army are the best shod troops in the world. The cost of the United States army shoe, garrison or marching, is in round figures \$3, and so popular is it with the men of the army that they rarely buy a pair of private shoes for use when absent from post on pass or on furlough. The quartermaster shoe of the present day is considered an excellent specimen of the shoemaker's art and is vastly different in fit and finish from the army shoe of a generation ago.

In those states where these shoes are issued by the national government to the organized militia it is one of the perplexities of the national guard officers to keep their men from wearing the shoes in civil life.

Before the foot and shoe fit question came under the study of men concerned with the efficiency of troops there was always a great deal of foot soreness among the soldiers on the march.

This trouble was always severe and annoying among new troops and among old troops with new shoes. The old idea was to equip a soldier with a pair of shoes that would wear long. The stoutness and durability of the shoe was the main consideration. There was very little consideration for the foot that went inside the shoe. If the shoe was large enough and not very much too large for the man the matter was thought to be settled. Foot trouble among regular troops on the march has been greatly reduced, but of course has not been eliminated. Probably that ideal never will be attained.

A soldier's marching efficiency depends not alone on the size or what is commonly called the "fit" of the shoe, but on the shape. It has been said that Dr. Herman Meyer was the first to formulate the theory that the great toe must lie in such a position that its axis when carried backward shall pass through the center of the heel. The foot is a lever of the second class; the fulcrum is at the ball and great toe and power at the heel, which is transmitted through the tendo-Achilles from the calf muscles and the weight of the body between. This lever is the prime factor in walking or marching. The leg and body muscles balance the load or shift the levers, which are the feet.—Washington Star.

The great thing in the world is not so much to seek happiness as to earn peace and self respect.

YOUR BLOOD

is the canal of life but it becomes a sewer if clogged up. All life consists of building up and tearing down and just in the same manner that the blood carries to the various parts of the body the food that the cells need for building up, so it is compelled to carry away the waste material that's torn down. These waste materials are poisonous and destroy us unless the liver and kidneys are stimulated into refreshed and vigorous life.

DR. PIERCE'S Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition—on the purifying filters which clean the blood. Thus fresh vitalized blood feeds the nerves, heart—and brain. This well known alternative relieves catarrh of the stomach and headachae accompanying same, and has been successful for more than a generation as a tonic and body-builder. It builds up the rundown system. You need it—if you are always "catching cold"—or have catarrh of the nose and throat. The active medicinal principles of American-Native-roots are extracted without alcohol and you can obtain this tonic in liquid or tablet form at any drug store or send 50 cents in 1-cent stamps for trial box of tablets.

Send 51 one-cent stamps to pay cost of mailing and wrapping for free copy of The Common Sense Medical Adviser, by Dr. R. V. Pierce, cloth bound, 1909. Pages. Address: ENVALU'S HOTEL, Buffalo, N. Y.

BAGGING A HIPPO.

How It Is Done and How the Flesh of the Animal Tastes.

There are two ways of bagging a hippopotamus, says a writer in the Wide World Magazine, and neither is justified unless the sportsman is sorely in want of food, for its meat is very poor indeed and wants a good deal of preparation to be palatable to any one except the starving. It has a taste I can only describe as fishy, something what beef would taste like after being wrapped up for a couple of days with a Scotch haddock of doubtful freshness.

The hippo may be shot in water. When mortally wounded he will sink and will not reappear on the surface for several hours, consequently a firing lookout has to be kept for the carcass. If he is only slightly wounded he may charge, but more often he will flee and die in the reeds to serve as food for scavenger birds or crocodiles.

The other and more sporting way is to shoot him on land. This is, as a rule, only possible at night or late in the evening and early in the morning. It would not be wise to find oneself between the river and the wounded hippo, for he at once makes for the water by the shortest route, and he goes so fast that getting out of his way requires pretty speedy feet and great coolness of nerve.

Dodging an Argument.

CRAWFORD—How do you get your wife to believe what you say when you come home late?

CRABSHAW—I first listen to what she accuses me of doing, and then I own up to it.—Judge.

Cut Rate Shipping.

Best Treatment for Constipation.

"My daughter used Chamberlain's Tablets for constipation with good results and I can recommend them highly," writes Paul E. Babin, Baushly, La. For sale by all dealers.

Secretary Bryan spoke in the Billy Sunday tabernacle at Philadelphia last week and appealed for recruits for total abstinence and it is reported that 10,000 men of all ages responded.

Whole Family Dependent.

E. Williams, Hamilton, Ohio, writes: "Our whole family depend on Pine-Tar-Honey." Maybe someone in your family has a severe cold—perhaps it is the baby. The original Dr. Bell's Pine-Tar-Honey is an ever ready household remedy—it gives immediate relief. Pine-Tar-Honey penetrates the linings of the throat and lungs, destroys the germs, and allows nature to act. At your druggist, 25c.

A last tribute of respect and esteem was paid to the late Bishop Fox by the people of Green Bay last Thursday. During his residence in Green Bay Bishop Fox not only endeared himself to those of his own denomination but to the citizens in general as well and his death takes from Green Bay one of its most beloved and highly respected citizens and church dignitaries.

Recommends Chamberlain's Cough Remedy.

"I take pleasure in recommending Chamberlain's Cough Remedy to my customers because I have confidence in it. I find that they are pleased with it and call for it when again in need of such a medicine," writes J. W. Sexton, Montevallo, Mo. For sale by all dealers.

It seems to be the effort of many newspapers to make it appear that Secretary Bryan is little more than a figure head at Washington. Whether the writers are bent on trying to destroy "The Greatest Commoner" in order to prevent his becoming a candidate for the presidency or to injure President Wilson's chances for another term because of his appointment of Secretary Bryan and his retention in the cabinet, it is hard to decide, but when partisanship is forgotten and the smoke of dirty politics is cleared away it will be discovered and admitted that Secretary Bryan was the right man in the secretary of state's office and that he has done more to bring about universal peace than any other man in the history of this great nation. His peace pacts, nearly thirty in number, will stand to his credit. President Wilson will not part with the great secretary of state.

Daily and Weekly, \$4.

Commencing Jan. 1, 1913, the Milwaukee Daily Journal increased its subscription price to \$2.50 per year. The combination price with The Gazette is now \$4.00 per year. Remember, your home weekly paper and one of the best dailies in the state, both for \$4.00 per year, strictly in advance.

The Reverend Billy Sunday doesn't plagiarize from Ingersoll all the time. The other day he was expounding scripture, and here is how he did it, according to a newspaper report: "Then Herodias came in, and danced with her foot stuck out to a quarter to 12, and old Herod said, 'Sit, you're a peach. You can have anything you want.' He'd better stick to plagiarizing."

Man Takes His Own Medicine Is An Optimist.

He has absolute faith in his medicine—he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery for an irritating cold are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs, and open the way for nature to act. You can't destroy a cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery today.

If nothing worse, the facts regarding the state election pamphlet are a serious reflection on the judgment of those who are responsible for its publication. Over and above what the state received from candidates it was let in for an outlay of twenty-five thousand dollars by the issue of this pamphlet during the last two years. It can save that much money by abandoning the publication, and Senator Hanson's bill with that object in view deserves to go through with a whirl.

Some Rheumatism Curable.

Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and chronic rheumatism, rheumatic headaches, sciatic rheumatism and lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the effected part will give instant relief. Sloan's Liniment is good for pain, and especially rheumatic pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Get a 25c bottle now. Keep it handy in case of emergency.

(1st pub. Mar. 10—ins. 5) PUBLIC SALE.

On the 21st day of May, 1915, at 11 o'clock in the forenoon, at the office of Stevens Point Box Company, at Stevens Point, Wisconsin, the undersigned assignee will expose for sale at public auction, all the unsold property of Stevens Point Box Company, consisting of: (1) Box factory, 2 story, 56x128 feet, machinery complete, tools, stock and office fixtures; (2) power house, office building and 16 acres land adjoining; (3) about 600,000 feet pine and basswood box lumber. Appraised value of property, \$19,000. Sale will be subject to approval of the court. A deposit of 5 per cent of bid will be required of successful bidder. A short reasonable time for payment of balance of price will be fixed by the court. For full particulars inquire of

PLAINFIELD.

Ira Turner and family are now living with his father, Ed. Turner, but will soon move to the H. McCoog farm. Mr. and Mrs. Louis Kemerson moved to Junction City Friday, where they have work on Paul Pavlik's dairy farm. Pine Grove caucus will be held Friday afternoon, March 26th, at 2 o'clock, in the Woodman hall, Hancock.

John Lamberton of North Dakota is a guest of his son, Biron Lamberton, whom he had not seen before in fourteen years.

Jack Winechek, Jr., and Joe Rodock were Grand Rapids visitors Friday and Saturday. Joe secured employment on a dredge boat, to begin work April 15.

Mr. and Mrs. Lester Bates and Mrs. Hazel Wienbauer arrived home Saturday from Grand Rapids, where they were called to attend the funeral of Mrs. Jesse Athrop.

Mr. and Mrs. Frank Kracky, on the D. E. Barker farm, entertained a large company of guests Saturday evening at a farewell party, as they expect to move to the Robt. Harvey farm this week.

On Thursday evening the Plainfield high school team defeated Endeavor academy team at basket ball in this city, 22 to 7. The Plainfield second team was defeated on the same evening by Endeavor second team, 15 to 12.

Messdames F. B. Rawson, E. M. Walker, F. L. Walker, B. Johnson, F. J. Luce and Scobie were hostesses for the Home Economics Club, which met at the Rawson home on St. Patrick's evening. An enjoyable program appropriate to the day was carried out and choice refreshments served. Mrs. G. D. Sargent will entertain the club next Wednesday. They have been affiliated with the state federation of women's clubs, and as the name suggests, will make an active effort for village betterment.

ARNOTT.

Mr. and Mrs. John Schuler spent Tuesday at Stevens Point.

D. A. Kluck visited last Thursday and Friday at Stevens Point.

Ray Dineen and Clarence Whittaker were at Stevens Point Tuesday.

Ed. and Barney Kirsling were at Stevens Point on business last Friday.

Posters are out announcing a grand Easter dance on April 7th, at M. W. A. hall.

Mr. and Mrs. R. E. Newby visited relatives at the Point last Saturday and Sunday.

Mrs. L. E. Scherke left for Amherst on Monday to visit a few days at the home of her parents.

John Kussman, the road commissioner, made his regular trip over this territory on Saturday afternoon.

J. A. Werschowski & Co. have just received a car load of Reo autos. Who is the first one to get a 1915 Reo?

Miss Katherine Cox departed for Greenleaf on Saturday morning to spend Easter vacation at the home of her folks.

Ray Dineen, who was employed during the winter months in the northern woods, returned to his home south of here last week.

Fred Brayback and daughter, Mrs. H. M. Blumenstein, left for Oshkosh on Tuesday to attend the funeral of a friend and visit with relatives for a few days.

LINWOOD.

The caucus will be held this year on Friday, March 26th, at the town hall.

Clyde Diver of Stevens Point visited friends here last week, returning home Saturday.

Jay Clark spent one day last week at Plover, going down there on a business trip.

Altho a very few attended the dance given at Claire Hulce's Saturday night, a good time was had.

Grandma Stoddard, who has been quite ill for the past two weeks, feels somewhat better at the present time.

There will be a dance at Schlennvogt's hall (?) Thursday evening, March 25th. Everyone is cordially invited to attend.

Chester Whitman, who had been spending the fall and winter in Illinois, has returned to his home here to remain for some time.

Mrs. Eva Thompson spent a couple of days of last week visiting her mother, Mrs. S. Bowersock of Stevens Point, who has been ill for the past six weeks.

The teachers and pupils of the Sunday school classes are busy preparing for their Easter program, which will take place on Easter Sunday at the school house.

Runaway Does Damage.

A team owned by Alvin Huckle of the town of Plover, which was tied to a post near the south end of S. Second street, Tuesday afternoon, became unfettered and started to run north. Upon reaching the next block, between Clark street and public square, the wagon to which they were hitched struck a valuable horse belonging to Michael Krush, who lives at 609 Michigan avenue, and broke the animal's right hind leg. After an examination by Dr. F. A. Norton, the horse was put to death by the veterinarian and M. E. Bruce, humane agent.

Teachers' Examinations.

Examinations for teachers' certificates in Portage county will be held as follows:

Stevens Point—April 7, 8, 9 and 10. Almond—April 13 and 14.

Third grade branches will be given at Stevens Point and Almond and second and first grade branches at Stevens Point only. Since January 1, 1915, library methods is a third grade branch and also it is necessary for every new applicant to any grade of county certificate to have one year's professional training in addition to passing the county examinations.

DIPLOMA EXAMINATIONS.

Diploma examinations will be held on April 22 and 23 in all rural schools of the county where there are applicants for diplomas. Teachers, please send to this office the names of pupils who wish to take the diploma examinations this spring. Complete instructions will be sent to each teacher in a few days.

Very cordially yours, Frances C. Bannach, County Supt.

GOT A SURPRISE.

He Expected to Be Quite Conspicuous, but Found Himself Ignored.

"Say," said the man who takes himself seriously, "I had a great surprise thrust upon me when I went down to get my marriage license last month. When I think it over I am ready to assert that it was a disagreeable surprise.

"I sneaked into the big office under the impression that everybody was watching me. But when I told the clerk at the window what I wanted he took the information with a coolness that was almost disgusting. When I gave him my name—which seemed to me to reverberate like thunder—not a solitary clerk raised his head. And nobody laughed when the inquisitor asked me how I spelled it. When I gave the lady's name and fancied everybody would titter the only sound I could hear was the turning of record leaves and the muddled clicking of a distant typewriter.

"Why, they couldn't have treated me with more indifference if I had been buying marriage licenses twice a day for ten years.

"I went into that office feeling ashamed and sensitive and sneaking.

"I came out hurt, humiliated, humbled.

"I had expected to be ridiculed—I was absolutely ignored."—Cleveland Plain Dealer.

OUR GEOLOGICAL SURVEY.

Elsha Mitchell, Who Started It, Was a Martyr to His Science.

The first government geological survey in America was conducted by Elsha Mitchell, who was born in Washington, Conn., about the year 1794. He was a graduate of Yale and became professor of mathematics in the University of North Carolina. Afterward he became professor of chemistry, and in 1821 he was ordained a Presbyterian minister.

As state surveyor of North Carolina he made an extensive geological survey, and he was the first to ascertain that the mountains of North Carolina are the highest east of the Rockies. He was a martyr to science, for to settle some disputed point about the altitude of these mountains he ascended them in 1857, lost his way at night, fell down a precipice and was killed. The geological survey of the United States, which has carried out on a large scale the work commenced by Mitchell, was created for the purpose of preparing a map of the United States, classifying the public lands, examining the geological structure, mineral resources and the products of the republic and investigating the extent to which the arid and semi arid lands may be redeemed by irrigation.—New York World.

Raleigh's Advice.

If any desire thee to be his surety, give him a part of what thou hast to spare; if he press thee further he is not thy friend at all, for friendship rather chooseth harm to itself than offereth it. If thou be bound for a stranger, thou art a fool; if for a merchant, thou puttest thy estate to learn to swim; if for a churchman, he hath no inheritance; if for a lawyer, he will find an evasion by syllable or word to abuse thee; if for a poor man thou must pay it thyself; if for a rich man, he needs not; therefore, from suretyship, as from a manslaughter or enchanter, bless thyself; for the best profit and return will be this: that if thou force him for whom thou art bound, to pay it himself, he will become thy enemy; if thou use to pay it thyself, thou wilt become a beggar.—Sir Walter Raleigh.

Suspicious of Charles Reade.

Wealthy men are often abnormally suspicious of tricks. The celebrated author Charles Reade was one of this kind. He always imagined he was being robbed and set traps to catch the thieves. When he became lessee of a certain theater he suspected that his ticket office cheated him by letting in the public for anything they could get and keeping the money. So Reade turned up the collar of his overcoat, pulled his hat down over his eyes and shuffled up to the box office as the people were going in. He shoved a half crown in the box office keeper's hand and whispered: "It's all right—that's for you—I don't want a ticket. Just pass me through." The clerk ran out, seized Reade by his coat collar and was passing him roughly into the street when he recognized his "chief."

Origin of the Name Automobile.

The word automobile comes from two words, one Greek and the other Latin. The two words are auto and mobilis. The former is derived from the Greek autos, meaning self, and the latter from the Latin mobilis, abverb, movable. This is originally derived from the Latin verb moveo, movere, movi, motus, meaning to move. We are unable to say who first suggested the name for self propelled vehicles.

For Bachelors.

"My fortune is made!" exclaimed the inventor.

"What is it now?"

"An alarm clock with a phonograph attachment that will reason with a man when it arouses him."—Philadelphia Ledger.

Thoroughly Human.

Everybody looks at the first name on a subscription list before signing it. Don't know whether it's a human trait or an idiosyncrasy.—Toledo Blade.

He who has a thousand friends has not a friend to spare.—All Ben Abu Taleb.

LIVED HERE SIXTY YEARS

Mrs. Mercy Martin, One of County's Oldest Residents, Dies at Home on Main Street Last Sunday Morning.

As the direct result of dropsy and heart trouble, the sequence of six years of failing health, Mrs. Mercy Martin, one of Portage county's well known pioneers, passed away at 4:30 o'clock last Sunday morning at the home of her son, S. A. Martin on Main street. While visiting at Moorehead, Minn., six years ago, Mrs. Martin stepped on a rusty nail and the resultant blood poisoning almost proved fatal. She never fully recovered and since the early part of last December she had been a helpless invalid.

Mercy Constant Vaughn was born at Saranac, Clinton county, New York, seventy-nine years ago September 8, 1914. Her parents, Mr. and Mrs. E. H. Vaughn, accompanied by their family, left New York in 1847 and after journeying most of the way by water, via the Erie canal and the Great Lakes, settled on a farm in the southern part of Wisconsin, in Green county. Six months were spent there and they then moved to Dane county, where they resided on a farm for the next seven years. In 1854 they came to Stevens Point.

During the next three years the daughter, Miss Mercy, was one of the "pinery's" school teachers, instilling the rudiments of knowledge at "Wiley's," up the Wisconsin river, at Lake Emily, the Morrill school in the town of Plover, and at Jordan. In 1857 she was married to Jesse A. Martin, who was also a pioneer of this section. He came to what is now Stevens Point before 1839, the year that George Stevens made this site the transfer point for supplies being transported to the upper country. Mr. Martin was the proprietor of a dry goods store, which included the postoffice, in the early days, and this was situated at what is now the southwest corner of S. Second and Clark streets. He also operated a saw mill on the Eau Claire river at one time.

Mr. and Mrs. Martin moved onto a farm in the town of Carson in 1867, a part of the land belonging to the farm being what is now known as "Martin's island," one of the most popular camping grounds in this vicinity. They made their home on the farm until November, 1900, when they returned to this city, and Mr. Martin passed away on the 23rd of the following July. They were the parents of twelve children, ten of whom survive, as follows: Theron L. Wausau; D. H. Madison; W. E., International Falls, Minn.; Gene R. and Mrs. H. E. Rice, Bemidji, Minn.; Mrs. J. H. Gee, St. Johns, Ore.; Mrs. Charles Cartmill, Mrs. Geo. E. Vaughn, B. V. and S. A. Martin, city. Four brothers and a sister are also left to mourn her loss, as well as thirty-three grandchildren and seven great grandchildren. The brothers and sister are D. H. Vaughn, Rhinelander; S. H. Vaughn, Green Bay; R. D. Vaughn, Waupaca; B. L. Vaughn and Mrs. Truman Rice, city.

Mrs. Martin was a most sincere Christian woman, characterizing the best traits of womanhood and motherhood. She was a charter member of the local Baptist church, having been a member for nearly sixty years. She was a woman of strong and sturdy character, symbolic of the race of pioneers.

Funeral services were held from the S. A. Martin residence at 2:30 o'clock Tuesday afternoon, and at 3 o'clock from the Baptist church, Rev. James Blake officiating.

MISS MAYME CEARY

—announces her—

SPRING OPENING OF
MILLINERY GOODS

THURSDAY, MAR. 25

A complete stock of Trimmed and Untrimmed Hats will be on display and a cordial invitation is extended to the ladies.

Store corner of Main Street and Strong's Avenue

Four of the lady's sons and two sons-in-law served as pallbearers. They were Theron L., B. V., D. H., and S. A. Martin, Geo. E. Vaughn and Chas. Cartmill. All the children and other near relatives were here except the two sons and daughter in Minnesota and the daughter whose home is in Oregon. The funeral was very largely attended.

Business College Notes.

Floyd Pike is still absent on account of illness.

Walter Pike is now the cashier of the college bank.

Frank P. Richter of Polonia has enrolled in the academic department.

N. K. Nelson of Wild Rose, father of our proprietor, S. K. Nelson, was a recent visitor at the college.

A new class in stenotypy has been organized, consisting of James Diver, Walter Pike and Russell Masters.

Ben Hautzinger, one of our graduates in stenotypy, is now employed in the offices of Fisher, Hanna & Cashin, attorneys.

The business college literary society elected the following new officers last Friday afternoon:

President—Orin Paulson.

Vice Pres.—Frank Drake.

Secretary—Anna Egenhoefer.

Treasurer—Russell Masters.

Program committee—Edna Hale, Walter Pike.

Her Wavering Affections.

"Hubby, I'm in love with that hat." "You fall in love with too many hats. If you'll promise to remain constant to that one as much as six weeks I'll buy it for you."—Buffalo News.

STEVENS POINT, WIS., MARCH 24, 1915.

SUDAN IS SEIZED BY THE MOSLEMS

80,000 Tribesmen Overflow Middle Egypt.

PRISONERS ARE DECAPITATED

Gen. Hawley and Many Officers Killed Also When His Command Is Attacked by 40,000 Along the White Nile.

Berlin, Germany (by wireless to Sayville, L. I.), March 20.—A German merchant who has returned from Egypt is authority for the declaration that the whole of the Sudan, including Khartum and also parts of Nubia, is in possession of the dervishes.

The statements of this traveler are published in the Vossische Zeitung. He describes also an engagement near Fashoda last December, in which General Hawley of the British army and a number of other officers, with nearly 2,000 men, lost their lives.

The merchant relates a story of the alleged uprising of the Senussi tribesmen in November. He declares that they destroyed an Australian camp near the pyramids November 19, killing 200 Australians and capturing guns and provisions.

Later, in large force, not fewer than 80,000, they overflowed the entire province of Fayum and destroyed all railroads, including the Cairo-Assuan line. December 1 they destroyed the Alexandria-Cairo railroad near Danlaur.

Thousands of tribesmen responded to the appeal of the dervishes and December 13 40,000 of them marched in the direction of Fashoda, on the White Nile, where General Hawley opposed them with 6,000 troops. Of the men under Hawley all the native soldiers deserted to the dervishes, leaving them only 2,000 men.

Most of this contingent was killed and General Hawley and all his officers fell. Nabur El-Asi, commanding the dervishes, had all his prisoners decapitated.

As a result of this victory all the native chiefs joined the dervishes, who, January 1, took possession of the important military post at Nasser, in the district of Sennaar.

The merchant also declares that the dervishes destroyed all the telegraph lines in lower Egypt. No word of the conquest of the Sudan has been allowed to leak out.

DIGGS AND CAMINETTI LOSE.

Both Men Must Go to Prison in the California White Slave Case.

San Francisco, March 20.—The convictions of F. Drew Caminetti, son of Anthony Caminetti, United States commissioner general of immigration, and Maurice I. Diggs, former state architect, under the Mann white slave act, were affirmed on Tuesday by the United States circuit court of appeals. Diggs and Caminetti were tried and convicted before District Judge William C. Van Fleet in 1913 for the transportation of Lola Norris and Marsha Warrington from Sacramento, Cal., to Reno, Nev., for immoral purposes. Diggs was sentenced to imprisonment on McNeil island for two years and fined \$2,000. Caminetti was sentenced to 18 months' imprisonment and a fine of \$1,500. The case was taken to the higher court on a writ of error.

ENVOY ASKS CURB ON VILLA.

British Embassy Wants U. S. to Prevent Levy From Foreigners.

Washington, March 20.—The British embassy after receiving advices from Monterey, asked the state department on Thursday to protest against Villa's special levy of 1,000,000 pesos upon foreigners at Monterey. The light and power company there owned by British capital was taxed \$35,000.

Washington, March 20.—A protest was sent by the United States on Thursday evening to General Villa against the collection from Americans or other foreigners of part of a special tax of 1,000,000 pesos levied at Monterey.

OLDFIELD WINS AUTO RACE.

Veteran Victor in 301-Mile Grand Prix Over Venice Speedway.

Los Angeles, Cal., March 19.—Out of one of the most dramatic and thrilling finishes ever witnessed in southern California motor racing, Barney Oldfield came to victory without a stop in the 301-mile Grand Prix in his Maxwell over the new Venice speedway on Wednesday.

Oldfield's time was 4 hours, 24 minutes, 9 seconds, an average of 67 miles an hour. Half a minute behind Oldfield was William Carlson in a duplicate Maxwell. Then came G. E. Ruckstell in his Mercer for third honors.

MISS MADGE NORTH

Miss North is a protegee of Senator Tillman. She is English and came to this country to earn money to complete her musical education.

ITALY'S HUGE DEMANDS PRODUCE A WAR CRISIS

Believed That Austria Will Refuse to Cede Any Lands—Asks Pola Naval Base.

Rome, March 17, via Chiasso, Switzerland.—The political pressure brought on the Italian government to pledge Italy's course in future, either to Germany and Austria or the Anglo-French-Russian allies, is believed to have almost reached a climax.

Prince von Buelow, German ambassador, is reliably reported to have given formal assurances that Germany will be able to induce Austria to concede to Italy the territory demanded, with a free hand in southern Albania. In addition, the central empires would further Italy's ambitions in the eastern Mediterranean.

The German diplomat pointed out furthermore that the marine supremacy of Great Britain and France would have the effect of crushing Italy. Representatives of the allies in their negotiations with the Italian government presented the matter in a different light. They united in saying the defeat of Germany and Austria-Hungary was inevitable, even without the participation of Italy. In case Italy refrained from taking part she would receive nothing from the allies when the settlements were made.

What is believed in high quarters to be an authoritative outline of the territorial demands of Italy and the position of Austria in regard to them was obtained during the day. The difference between the Italian and Austrian points of view, as thus indicated, appears to be so great that well-informed persons are not able to perceive any likelihood of an adjustment.

Roughly speaking, Italy desires a sweep of territory to the north and east which would extend her boundary around the northern end of the Adriatic sea as far south as Fiume, on the eastern coast.

This would include the Austrian naval base at Pola, as well as the provinces of Trent and Trieste, acquisition of which has been Italy's long-cherished aspiration.

The concessions which Austria is believed to be willing to make are insignificant, compared with the demands.

SHIP SEIZED IN BLOCKADE.

Swedish Steamer Carrying Provisions to Germany Is Taken.

London, March 20.—The first seizure made by Great Britain under the provisions of its recently announced blockade of the German coast was made on Thursday when the Swedish steamer Geheland Dacon, carrying a cargo of provisions intended for a German port, was held up and brought into Lee in the custody of a British patrol boat.

50,000 FRENCH ARE SLAIN?

Unofficial Report Received in Berlin Says Enemy Lost Heavily.

Berlin, March 19.—More than 50,000 French soldiers have been killed since early February and 25,000 more lie buried between the firing lines in the five-mile strip between Perthes and Hild in the Champagne district, according to unofficial reports received here.

WON'T CONFISCATE AMERICAN GOODS

Blockade Limited by Britain to War Zone.

REPLIES TO U. S. PROTEST

State Department Makes Public Answers Received From the Allies of Inquiry on Protection of American Ships.

Washington, March 19.—In notes of similar tenor made public on Wednesday by the state department, Great Britain and France make the definite assertion to the United States that they have established and are enforcing a blockade of the ports of Germany, but that the allied governments will "refrain from enforcing the usual penalties of a blockade."

It is further explained that neutral vessels are subject to seizure only when presumed to be carrying contraband, and in the words of the French note, "the discharged cargo shall not be confiscated. Merchandise belonging to neutrals shall be held at the disposal of its owner to be returned to the port of departure. In case the owner of the goods is a German, they shall simply be sequestered during the war."

These notes were in answer to the American representations made to the allies recently asking an explanation of the method to be adopted in enforcing the blockade, and pointing out that some of the provisions in this blockade plan were paradoxical. The American note was made public by Secretary Bryan simultaneously.

The reply of Great Britain to the recent American note proposing a method of agreement between Great Britain and Germany for the protection of neutral ships in the sea war zone, and suggesting that Great Britain permit the shipment of foodstuffs to German civilians in return for the abandonment of mine and submarine warfare, also was made public. As has already been announced in the newspapers, the British reply is a complete rejection of the proposal. Germany's conciliatory reply already has been published.

RAIDER SUNK BY BRITISH.

German Cruiser Dresden Destroyed in South Pacific.

London, March 17.—The admiralty announced on Monday that the German cruiser Dresden, noted sea raider, has been sunk.

"The engagement occurred off Juan Fernandez island, the admiralty announced. The British warships Glasgow, Orma and Kent trapped the Dresden and closed in upon her. After five minutes of action, during which heavy damage was inflicted on the German cruiser, she hauled down her colors and ran up the white flag of surrender.

The Dresden was aflame when the white flag was run up. A magazine had exploded and her upper works were afire. Her crew was quickly taken off by boats from the British warships. Flames spread rapidly and with successive explosions the Dresden quickly went to the bottom.

Fifteen wounded of the crew of the Dresden were landed at Valparaiso. There were no English casualties, the admiralty announced. The engagement occurred on Sunday, March 14.

The Dresden escaped from the British squadron of Admiral Sturdee when the German squadron of Admiral von Spee was sunk off the Falklands early in December.

The cruiser Dresden was a sister ship of the most famous of all the German raiders, the Emden.

JUDGE DENIES THAW MOTION.

Slayer of Stanford White Ordered Back to Matteawan.

New York, March 18.—Holding that the mandate of the Supreme court of the United States did not hold good now that the trial for conspiracy was over, Justice Page in the supreme court on Tuesday denied the motion of Harry K. Thaw's attorneys to have him returned to New Hampshire.

The writ of habeas corpus, however, sued out by John B. Stanchfield, acted as a stay to Thaw's return to Matteawan, and he was remanded in the custody of the sheriff until he appears before Justice Bijur next Friday morning.

Despondent Woman Ends Life.

Laporte, Ind., March 18.—Despondent over the recent death of her husband, Lyman Egbert, well-known business man at New Carlisle, ten miles east of here, Mrs. Flora Egbert, aged fifty, committed suicide by shooting herself through the head with a pistol.

MRS. HAVILAND H. LUND

Mrs. Lund is head of the National Forward to the Land Movement, the object of which is to take care of the army of unemployed. The plan is to have communities of small farms supervised by an expert, the farmers to pay for their land as they are able.

SEND ANOTHER WARSHIP TO RESCUE AMERICANS

Alarming Reports Reach Washington From Progresso, Mex.—Gunboat Brutus Sent to Port.

Washington, March 18.—Most alarming reports which reached the state and navy departments during the day concerning danger to Americans and other foreigners at Progresso caused the secretary of the navy to send an additional ship, the Brutus, from Vera Cruz to that port.

The Des Moines is already there with instructions from Admiral Caperton at Vera Cruz to give asylum to Americans and foreigners who may wish to come aboard.

Authentic reports are that, notwithstanding assertions of the re-establishment of order, there is panic among foreigners to get out of Mexico City. The "new government" is under control of Roque Gonzales Garza, who was elected provisional president by Mexican generals on January 17.

Secretary Bryan referred again to Americans and other foreigners who have told the Brazilian minister that they want to get out at once. The Brazilian minister is arranging for their departure.

The only detailed news concerning conditions in the city comes through the various legations and embassies here, all of which describe them as deplorable.

Sweden has a case against Mexico similar to that of the United States in the McManus case. Sweden asserts that one of her citizens, Johan Eklund, was murdered by Obregon's troops just before Obregon left Mexico City. The Swedish minister reported that the home of Gustav Lundholm and that of another Swedish subject had been looted.

The department is still solicitous about the safety of Americans and other foreigners at Manzanillo. The United States is relying on the cruiser Cleveland, which is off the port of Manzanillo.

FRIEND OF BEACHEY KILLED.

Frank Stites, Aviator, Dashed to Earth in Flight at Universal City.

Los Angeles, March 18.—Aviator Frank Stites fell 200 feet with his machine at Universal City on Tuesday and was fatally injured, dying half an hour later in a hospital. Stites was a close friend of Lincoln Beachey and was greatly depressed over Beachey's fatal fall at San Francisco. Sunday he made an unsuccessful attempt at a flight and afterwards remarked to a friend that he had lost his nerve. While making the flight Stites apparently lost control of his machine and being too close to ground to regain it was dashed to earth. He sustained a broken leg and internal injuries, the latter causing death.

COMPLIES WITH U. S. DEMAND.

Carranza Opens Port at Progresso, Mex., After Protest.

Washington, March 17.—General Carranza on Monday abandoned his blockade of the port of Progresso on urgent representations by the United States. The Mexican gunboat Zaragoza has been called off and two American ships laden with sisal for the United States have cleared without interference. Rear Admiral Caperton's dispatches telling of relief of the situation crossed a new note from the United States which was sent on its way to Carranza giving notice that the United States was determined to raise the blockade, and if necessary, use the cruiser Des Moines to do so.

3 WARSHIPS SUNK

SOME OF THE LARGEST BATTLESHIPS IN FRANCO-BRITISH FLEET LOST.

630 DIE ON FRENCH SHIP

British Admiralty Admits Heaviest Blow of Naval War in Sinking of the Dreadnaught Irresistible, Ocean and Bouvet by Mines.

London, March 22.—The greatest blow suffered by the allies on the seas since the war began was administered by the Turks Thursday, when drifting mines in the narrows of the Dardanelles blew up and sank three of the largest battleships in the Franco-Turkish fleet while the ships were bombarding eight of the Turkish forts.

The ships destroyed are the 15,000-ton British second line battleship Irresistible, the 12,500-ton British battleship Ocean and the 12,205-ton French battleship Bouvet. In addition, the British dreadnaught cruiser Inflexible and the French battleship Gaulois were damaged by the gunfire from the forts.

Nearly every man of the 630 in the crew of the Bouvet was lost with the ship, but almost the entire crews of the Irresistible and the Ocean were saved.

This tremendous loss was admitted in an official statement given out by the admiralty. Official dispatches telling of the sinking of the Bouvet from Constantinople via Berlin, besides telling of the sinking of the Bouvet and saying the Irresistible was "put out of action," also claim that a British torpedo boat was sunk, but the English admiralty has not confirmed this fact.

The admiralty's statement is as follows:

"Mine sweeping has been in progress for ten days inside the straits. A general attack by the British and French fleets was opened on the morning of the 18th against the fortresses in the narrows.

At 10:45 a. m. the superdreadnaught Queen Elizabeth and the battleships Inflexible, Agamemnon and Lord Nelson bombarded forts J, L, T, U. and V., and the battleships Triumph and Prince George bombarded batteries F, E. and H. A heavy fire was opened on the ships by the enemy howitzers and field guns.

"At 12:22 p. m. the French squadron, consisting of the battleships Suffren, Gaulois, Charlemagne and Bouvet, advanced into the Dardanelles and engaged the forts at closer range. Forts J, U, F. and E. replied strongly. Their fire was silenced by ten battleships inside the straits. All the ships were hit several times during this part of the action.

"At 1:25 p. m. all the forts ceased firing. The battleships Vengeance, Irresistible, Albion, Ocean, Swiftsure and Majestic then advanced to relieve the six old battleships, which were inside the straits.

"As the French squadron, which had engaged the forts in most brilliant fashion, was passing out, the Bouvet was blown up by a drifting mine and sank in 36 fathoms of water north of the village of Aren Kios in less than three minutes.

"At 2:36 p. m. the relief battleships renewed the attack on the forts, which again opened fire.

"At 4:09 p. m. the battleship Irresistible quit the line, listing heavily, and at 7:50 p. m. sank, having probably struck a drifting mine. At 6:05 p. m. the battleship Ocean also was struck by a mine. Both vessels sank in deep water and practically the whole of their crews were removed to safety under a hot fire.

"The French battleship Gaulois was damaged by gunfire. The British battleship Inflexible was hit by a heavy shell, damaging her forward control position, which requires repair.

"The damage to the forts effected by the prolonged direct fire of the very powerful forces employed cannot yet be estimated. The losses in ships was caused by mines drifting with the current, which was encountered in areas hitherto swept clear.

"The British casualties in personnel were not heavy considering the scale of the operation, but practically the whole of the crew of the Bouvet was lost with the ship, an internal explosion having apparently supervened the explosion of the mine.

"The battleships Queen and Implacable, which were dispatched from England to replace ships damaged and casualties suffered in anticipation of this operation, are due to arrive immediately, bringing the British fleet again to its original strength.

"The operations are continuing as ample naval forces are available.

"On the 16th Vice-Admiral Carden, who had been incapacitated by illness, was succeeded as chief in command by Rear Admiral John Michael Derobeck, acting with the rank of vice-admiral."

Seen and Heard In Wisconsin

Madison.—Two university students, Philip K. Robinson of Green Bay and Miltimore Brush of Greenwich, O., decided to indulge in a game of marbles on a downtown street. Asked to move along, the students commenced an argument, it is said, which resulted in the arrest of Brush. Arraigned in municipal court on a charge of disorderly conduct, Brush pleaded not guilty, but was fined \$5. He has appealed to the circuit. Brush and Robinson are seniors.

Oshkosh.—Company B, Second infantry, Wisconsin national guard, of this city, holds what is believed to be the record in attendance at annual inspection. The company turned out 87 of 88 members. The one absent was Second Lieut. John Spencer, who was sick in bed. Capt. R. C. Wescott, regular army, was the inspector. He complimented the company on its record showing.

Kenosha.—The biggest social function ever given by the Kenosha Elks took place with more than 300 members of the order gathered at a banquet in honor of John M. Kehlor and Judge C. E. Randall. Among the speakers were: William F. Schad, grand esteemed leading knight, and Post Grand Exalted Ruler John Sammis of Le Mars, Ia.

Kenosha.—Telegrams from Detroit announce that Lloyd Cole, twenty-one years of age, a member of a prominent Kenosha family, had been arrested at Windsor on a charge of dealing in "dope." It is said that his operations were on a mammoth scale and that he is wanted in many Canadian cities. Cole was married a short time ago.

Ashland.—The second annual meeting of the Lake Superior Holsteiner Breeders' association was held here. The old board was unanimously re-elected. C. M. Knight, president; William Landriant, vice-president; D. W. Emerson, secretary; A. N. Newell of Butternut, treasurer.

New Richmond.—John Heffron, a pioneer of St. Croix county, veteran hotel keeper, dropped dead at Emerald, Wis. He was born in Ireland sixty-seven years ago. He is survived by a family of grown-up children, including Mrs. John R. Gallagher of this city.

Madison.—The attorney-general has advised the secretary of state that poultry societies must be incorporated to secure state aid, and that those holding shows during the process of their incorporation are not entitled to state aid.

Janesville.—The second of the "Parents' nights" at the Janesville high school during the winter took place. These have proved so satisfactory they will be continued. Various school problems are discussed at these meetings.

Maiden Rock.—Mrs. George Davis, aged eighty-one, died at her home here. Mrs. Davis had lived here for more than sixty years. She taught the first school in Maiden Rock, and her husband was the first postmaster.

Racine.—City Attorney Burgess has ruled persons who fall, breaking bones on slippery sidewalks, cannot recover damages from the city. Under the revised statutes, according to the city attorney, the city is not responsible.

Madison.—Petitions for the nomination of Claude G. Cannon of Appleton to be a candidate for judge in the Tenth circuit to succeed Judge John Goodland, were filed in the office of Secretary of State Donald.

Ashland.—Frank Rodenbeck was shot in the arm in a saloon near Hurley. He was brought here for treatment. His arm is badly infected and the wound may prove fatal. His assailant escaped.

La Crosse.—While coasting down hill, Florence Gauntz, twelve-year-old daughter of Mr. and Mrs. William Gauntz of Thompson Corners, ran into a sharp stick which penetrated her body, killing her.

Madison.—Co-eds of the state university are angered by a proposed beauty contest which was to be the feature of the university exposition and are demanding that it be dropped as undignified.

Racine.—Work on the seven-foot sewer to drain the entire section of Racine lying to the west of the Twelfth street road has been halted by the great depth of water encountered.

Kenosha.—Twenty-five members of the Wisconsin Fire Prevention association, headed by President H. L. Dalton, came to Kenosha and made an inspection of buildings in the city.

Neenah.—Kane lodge of Masons celebrated the fiftieth anniversary of its organization here. Willard Jones of Menominee, Mich., fifty years a Mason, was guest of honor.

Madison.—A fight is being made to take the title of "official state paper" away from the Wisconsin State Journal. The bill favors the Evening Wisconsin of Milwaukee.
